

SHENZHEN ZHILAI SCI AND TECH CO., LTD.

Smart Food Vending Machine

A high-end smart self-service food vending machine designed for bar counter. It is made of food grade 304 stainless steel which is durable, aesthetic and hygienic. The machine adopts the dual-sided design, integrates food storage, heating, vending, and offers efficient convenient food purchase experience for customers.

Business Challenges

High labor cost and operation cost

1. Labor management is difficult
2. High salary

Vending jam at rush hours

1. Inefficient vending at rush hours
2. Mistakes in manual operation

Poor dining environment

1. Clients have to line up to buy/pick up food
2. Noisy dining environment

Solution

Zhilai has launched smart stainless-steel dual-sided food vending machine to restructure the conventional food selling scenario by "High hygienic standard + All-day unmanned retail". The machine is made of food grade 304 stainless steel, adopts dual-sided independent interaction system, anti-corrosive material and modular compartment design, which is applicable for restaurant kitchen, gas station, outdoor scenic area, and other areas with high humidity and high customer flow. It is a 7*24 smart vending terminal for retail enterprises, ensures food safety compliance and max. revenue per available square meter.
