

## Smart Food Delivery Locker (Double Sides)

A smart food delivery locker which is applicable for restaurants or closed space. Side A of the locker is used for food storage and side B is for food pickup. The locker realizes safe convenient quick food delivery, improves disorderly takeaway handover under various scenarios, and relief safety issues in access control.

### Business Challenges

#### Difficulties in access control

1. The access control process of closed space is complex

2. Couriers have to wait for clients to pick up takeaways

#### High delivery cost

1. High labor cost for food delivery

2. Long delivery time

#### Poor dining environment

1. Clients have to line up to pick up the food

2. Crowded restaurant

### “ Solution ”

Zhilai has launched the dual-sided food delivery locker which has independent doors at both sides. The locker is integrated to the restaurant ordering system or take-away platform data to establish “Drop-off-Pickup-Feedback” closed loop, which effectively resolves the difficulties in managing food pickup queue and access control of closed spaces, reliefs the messy due to rush-hour dining and food pickup, and optimizes disorderly food handover in various scenarios. Operating management efficiency is improved by the smart cloud platform management.

### Product Features

Double sides for food drop-off and delivery

Insulation and sterilization

Independent temperature control

Premium galvanized steel sheet

Patented electric lock

Environmentally friendly painting process

Multiple tests

Flexible installation

Customization optional

Smart management

Considerate service

Superior after sales service

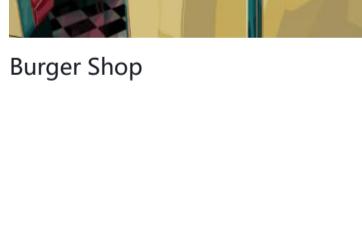

### Product Specification

<b>Starter dimension (L*D *H):</b>	980*430*2010mm
<b>Adder dimension (L*D *H):</b>	980*430*2010mm
<b>Starter:</b>	9 compartments
<b>Adder:</b>	10 compartments
<b>Compartment dimension (L*D*H):</b>	350*410*330mm
<b>Material:</b>	1.0mm galvanized steel sheet
<b>Rated voltage:</b>	110V, 230V
<b>Rated power:</b>	Starter 120W, Adder: 80W
<b>Other configurations:</b>	10.1" touch screen, 3288 controller, etc.
