

## Smart Food Delivery Locker (Stainless Steel)

A dual-sided food storage/pickup device which is applicable for high-end food delivery. Compared to the smart dual-sided food delivery locker, it is made of high-quality stainless steel which is durable, aesthetic and hygienic.

### Business Challenges

#### High daily maintenance cost

Machine needs to be cleaned frequently and cleaning is difficult

#### Short lifetime

Locker gets corrosive easily as food is hyperhaline

#### Limited food storage

Unpacked food cannot be stored

### Solution

Zhilai has launched smart stainless-steel dual-sided food delivery locker, which targets at the issues that conventional plastics/ metal sheet get corrosive easily, cleaning is difficult, durability is insufficient, etc., and restructures the end food pickup scenario with food grade 304 stainless steel. The locker is high-temperature resistant and oil permeation resistant, and is suitable for frequent uses in catering industry. Unique dual-sided independent door design. Modularized extension. Flexible adaption to restaurant kitchen, outer wall of office building, outdoor plaza and other complex installation scenarios.

Ultra-long lifetime reduces maintenance cost. The locker provides the infrastructure for high-standard round-the-clock unmanned food delivery for chain catering and smart community.

### Product Features

- |                                                  |                                             |
|--------------------------------------------------|---------------------------------------------|
| High-end appearance design                       | Dual doors at both sides                    |
| Multiple identity recognition methods            | Independent compartment temperature control |
| Build-in disinfection and sterilization function | Compartment lighting                        |
| High-quality stainless steel                     | Anti-corrosive, anti-rust, easy cleaning    |
| Smart alarm                                      | Smart monitoring module                     |
| Smart operating management                       |                                             |

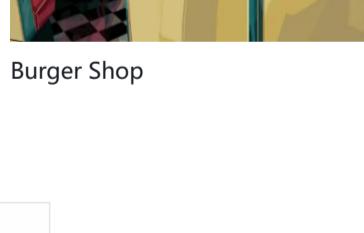

### Product Specification

<b>Starter dimension (L*D *H):</b>	980*430*2010mm
<b>Adder dimension (L*D *H):</b>	980*430*2010mm
<b>Starter:</b>	7 compartments
<b>Adder:</b>	8 compartments
<b>Compartment dimension (L*D*H):</b>	350*410*330mm
<b>Material:</b>	1.0mm galvanized steel sheet
<b>Rated voltage:</b>	110V, 230V
<b>Rated power:</b>	Starter 120W, Adder: 80W
<b>Other configurations:</b>	10.1" touch screen, 3288 controller, etc.

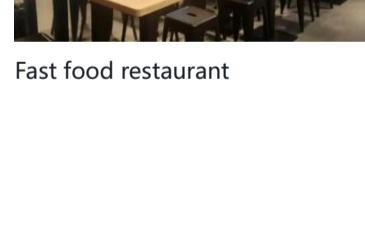

### Application Scenarios

Restaurant

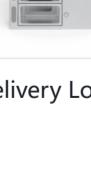

Burger Shop

Fast food restaurant

### Cooperation Cases

Smart Food Delivery Locker(Stainless Steel)
