## Electronic Storage Locker

An electronic storage terminal device is based on IoT technology to provide users with safe and convenient item storage services. Through an intelligent management system and diverse access methods, it enables fast item storage and retrieval, as well as efficient management.

### Business Challenges

#### Human Error

1. Manual registration is prone to errors
2. There is no supervision during the handover process

#### Inconvenient Access

1. Manual verification of compliance
2. Cumbersome manual searching and registration

#### Low Management Efficiency

1. Difficulty in finding daily data
2. Executing routine inventory checks

### “Solution”

Zhilai has introduced the Intelligent Valuables Storage Locker solution, designed specifically for the safekeeping of items such as jewelry, confidential documents, and high-value artifacts. It offers a "financial-grade security + intelligent management control" custody system. Unauthorized access triggers synchronized sound and light alarms, self-locking of the cabinet, and linkage with local security systems, meeting relevant anti-theft certification standards. This solution provides an integrated valuables asset custody infrastructure for financial institutions, auction houses, and high-end manufacturing enterprises, ensuring "zero-trust security, full-dimensional traceability, and compliant operations."

### Product Features

	24/7 self-service availability		Simplified item retrieval and return process
	Supports intelligent inventory functionality		Secure and reliable identity recognition
	Strong, anti-theft, anti-pry cabinet doors		Real-time monitoring and intelligent alarms
	Automatic synchronization of usage information		Real-time records of item pick-up and return
	Supports evidence traceability and verification		Durable and solid materials
	Exclusive RFID electronic tags		Branded accessories with thoughtful after-sales service

### Product Specification

<b>Starter Dimensions (L*D*H):</b>	530*450*1880mm
<b>Adder Dimensions (L*D*H):</b>	900*500*1880mm
<b>Starter Compartments:</b>	6 doors
<b>Compartment Dimensions (L*D*H):</b>	395*500*503mm
<b>Display Size:</b>	21.5 inches
<b>Material:</b>	≥0.8mm high-quality galvanized steel plate

### Application Scenarios

Theater

Scenic spot

Museum

### Cooperation Cases

Intelligent Valuables Storage Locker
